

# MEET THE NEW NORTH RANGE COUNSELOR!

REBECCA ORTMEIER, MS

## North Range Behavioral Health's Values

### Customer First

We help our customers achieve recovery, everyday.

### Compassion

We treat everyone with kindness, empathy, and dignity.

### Collaboration

We build strong relationships, internally and externally, to ensure effective care for our customers.

Rebecca started with North Range Behavioral Health in August of 2021 after working as a school based counselor in South Dakota for 3 years. She is excited to work with the students in the Highland School District and learn more about our community. Her main objective in working with the Highland Schools is to provide crisis intervention, individual, family, and group therapy and cases management services.

In working with clients, Rebecca will develop strength-based service plans and monitor treatment progress. Working in collaboration with the schools counselor and other officials, Rebecca will work with individuals with mild to severe mental illness or substance use disorders to help them work through their difficulties. Referrals to Rebecca will be made through the staff at each school and will be assessed on need.
